Dr. Mark Schoeman
Chairman GESA Colonoscopy
Recertification Program

The GESA Colonoscopy Recertification Program is a voluntary program for colonoscopists to show the ongoing quality of their practice. Colonoscopists provide information that demonstrates that they meet or exceed quality targets. The GESA criteria for recertification can be found at recert.gesa.org.au.

The program is supported by the Australian Federal Department of Health - National Bowel Cancer Screening Program and managed by the Gastroenterological Society of Australia (GESA) ABN: 44 001 171 115.
